"2012 And What It Holds"

Isten hozott,

This is a very exciting time that we live in. Positive changes are on the move. We have a chance to reinvent ourselves and become who we want to be, as well as, to attract what / who we want around us.

2010 and 2011 are a time of preparation for our consciousness being shifted, so that now anyone can be open to it. This is a paradigm shift.

We are reawakening to our Highest purpose.

In 2012, Celestial time speeds up. A time of putting aside time for yourself, remembering Divinity and connecting to the planet. (Rocks, trees, etc.)

The next, 5th dimension, is open to all. In the 5th dimension, you can gain ability to call things into being. It brings the opening of the throat chakra, clairaudience and telepathy, for everyone who is open and allows it.

This is a time of the Open Door to everyone who chooses to walk through it.

There is an internal shift going on. You will notice that some people eat differently now, do fasting, change their sleeping patterns, among other things, to match these new energies. Toxins are being released. This is a regeneration period.

After 2012- some people will be escalating at their own rate. Some will create a better life. Some will put themselves in negative situations, such as wars. It depends on what they think, see and in thought focus on.

The energies are layering and shifting. We are either in synch with it or not. They come in waves.

The Main Points

1 – We're moving through a planetary shift. This is a transition time.

2 – Why go through it?

Because we live on the planet and with the planet energies. (Such as Lei lines/Dragon lines, vortex areas, etc.)

3 – Two Reasons:

1. It is ordained.

2. The planet is ageless and goes through its natural cycles. We need to be in synch with it to do better and elevate.

The question is, how well will you work with it? Focus on the positive that you want to create in your life and in who you want to be.

Always remember, we have free will. So go forth and manifest your focus into the physical reality.
